

## **DOE Property Identified As Excess**

The following is a list of the Department of Energy's Oak Ridge Reservation real property that is currently identified as excess land:

- Parcel ED-1. This property consists of 957 acres. Of that acreage, 426 acres are being transferred to a community reuse organization under a 770 Rule proposal. The remaining 531 acres will be carried under a re-issued lease.
- Parcel G. This property consists of 20 acres. This is one element of a proposed exchange with the City of Oak Ridge involving the transfer of the American Museum of Science and Energy.
- Laboratory Road Parcel in Oak Ridge. This property consists of approximately one acre. This is a second element of the proposed exchange with the City of Oak Ridge involving the transfer of the American Museum of Science and Energy.

These properties make up the current body of excess land as of the end of December 2002.
